60 Open Commercial Heifers**

Commanding performance from pasture to plate.

Annual Bull Sale

Thursday, April 2, 2026

Glasgow Stockyards • Glasgow, MT • 1 p.m. MDT

Welcome to the eighth annual Northern Lites Red Angus production sale!

This has once again been an exciting year to be in the cattle business. Producers continue to make a profit. With these stellar prices, it is time to put some focus back into what kind of genetics will be used to further your calf crop for the coming year and we hope you look towards Northern Lites Red Angus once again to advance your herd's potential.

As NLRA continues to strive for the best genetics to provide our customers, we have made some major leaps to produce a quality product for our commercial cattlemen. Last fall we selected a handful of our best herd cows and collected embryos off of them to be implanted this spring to better advance our genetic potential. Along with some embryo work, we were able to receive individual carcass data back on not just our steers but two of our customers' feeder steer loads as well. And the results don't lie! Our Red Angus genetics showed they could be pushed to full performance while hanging a 1,000-pound carcass to hit the mark of 89.6% Choice or better, and converting their feed at above average predictions.

We are extremely excited about this offering of bulls. We may say that every year, but this year is no exception! After extensive sorting not just phenotypically but genomically we are proud to offer you this set of bulls. The bulls were fed at Hould Bull Development in Malta, MT by Bruce and Lance Hould, where they were given a high roughage diet since the second week of October. Once again, we will be selling 60 commercial open replacement heifers following the bull lineup this year. The heifers were developed at Greenway Growyard in Savage, MT by the Oliver family. The heifers are fed right alongside our registered females getting a high roughage diet, gaining about 2lbs per day.

Our annual production sale will take place at Glasgow Stockyards Thursday, April 2, in Glasgow, MT. The bulls and heifers will be available for viewing at the yards on April 1 all day. If you want to see them before April 1 reach out to Bryce 406-724-7029 or Rachael 406-480-1569 and they will get you covered.

If you have any questions about the sale offering, please don't hesitate to reach out at any time. We look forward to seeing everyone at the sale!

Sincerely,

Bryce Risa
Northern Lites Red Angus

Rachael Green
Sale Consultant

NORTHERN LITES RED ANGUS

Selling: **43 YEARLING RED ANGUS BULLS
60 OPEN COMMERCIAL HEIFERS**

LOCATION:

Glasgow Stockyards
7444 Hwy 42 • PO Box 129 • Glasgow, MT 59230

VIEW CATALOG & VIDEOS ONLINE:

NorthernLitesRedAngus.com
DVAuction.com

CATTLE VIEWING:

Bulls are fed at Hould Bull Development Feedlot in Malta, MT. Viewing is available at any time through March 30, 2026. Bulls will be present for viewing at Glasgow Stockyards Wednesday April 1st and prior to the sale on Thursday April 2nd.

Hould Bull Development Feedlot: 5867 Hwy 363 Malta, MT 59538

Replacement heifers are developed at Greenway Growyard in Savage, MT. The open heifers will be available to view at Glasgow Stockyards all day Wednesday, April 1st, and prior to the sale on Thursday, April 2nd. If you wish to view them before April 1st, please contact Rachael Green to schedule a time.

BREEDING SOUNDNESS EXAM:

Bulls are semen and fertility tested before sale day. Scrotal measurements will be posted on the website prior to sale and will be available the day of sale.

CARCASS ULTRASOUND DATA:

Data will be available on sale day.

SALE DAY ANNOUNCEMENTS:

All announcements on sale day will take precedence over the information contained in the catalog.

LIABILITY:

All persons who attend the sale or view the cattle do so at their own risk. Northern Lites Ranch and Glasgow Stockyards LLC. assumes no liability – legal or otherwise for any accidents that occur on sale day or visiting premises.

DELIVERY POLICY:

Free delivery is available within 300 miles for bull buyers only. Delivery beyond 300 miles will be to central points at buyer's cost. \$100 will be taken off each bull taken home on sale day by purchaser.

Open heifer delivery will be buyer's responsibility. Shipping on the heifers will be as soon as possible. We will be able to assist with shipping but it will be at the buyer's expense.

FEEDING POLICY:

Bulls will be fed for free until delivery.

GUARANTEE:

All bulls are guaranteed and have passed a fertility and health examination. In the event of a bull failing a semen examination or being injured while at Northern Lites Red Angus, a suitable replacement will be furnished if available or you will be fully refunded for your purchase. We encourage buyers to purchase livestock loss of use and mortality insurance.

The open heifers are guaranteed open and ready to breed.

Connect with us on Facebook!

Sale Information

HERD HEALTH:

All cattle are guaranteed healthy on sale and delivery day. The bulls have been vaccinated with Vista One SQ and Vision 7 somnus at branding and preconditioning. They have been following the health protocol at the Hould Feed yard since the beginning of October. All bulls will be poured prior to delivery. Heifers have had all calthood vaccinations and were given pre-conditioning shots prior to weaning. They have been bangs vaccinated, wearing 840 EIDs with no brands. They all have had pre-breeding shots and have been poured prior to sale day.

Bruce Sorenson, Herd Health Veterinarian 406-580-6297

LUNCH:

A complimentary lunch will be served at noon.

TERMS:

The terms of the sale are cash. All settlements will be made immediately following the conclusion of the sale and before the cattle will be released. Red Angus Association Terms and Conditions will apply if the terms and conditions printed here are not applicable

CATALOG & PROMOTION:

Cow Camp Promotionscowcampromotions.com

Watch & Bid online for FREE!

Can't make the sale?
Let DVAuction bring the sale to you!
Busy during the sale?
Let DVAuction represent your bid!

Visit www.dvauction.com and Register!
It's as easy as 1, 2, 3...

1. Create an account at www.dvauction.com under the "create new account" tab
2. Apply for bidding by clicking "apply for bidding" in the upper left corner of your screen, at least 24 hours prior to the auction
3. Tune into the sale and make your purchases!

For General Questions Please Contact Our Office:
(402) 316-5460 or support@dvauction.com

*High Speed Internet Access Required

SET UP AN ACCOUNT:

Setting up an account is a simple two minute process.

1. Look for the log-in area on the upper left portion of the screen.
2. Find the blue button labeled "Register to View"
3. Fill in the form with your name, email, state, username, and password.
4. Press the proceed button at the bottom of the page.

Any time you come back to CattleUSA just enter your username and password to log-in and watch auctions.

GET APPROVED TO BUY:

Each auction approves its own buyers, no buyers are approved by CattleUSA. This is done for your privacy and security. Your buyers information is kept private and is only released to the auctions you choose. In order to obtain approval to buy at an auction you will need to submit your contact information to each auction you wish to buy from.

1. Log in to CattleUSA.
2. Push the Submit button next the auction you wish to be approved at. The first time you do this, a form will pop-up for you to fill out your contact information. Fill out your information then push the button at the bottom of the form to continue.
3. You have now sent your information to that auction. The auction will now be able to find you in their data base and approve you to buy. If you would like to be approved at other auctions push the submit button next to each auction you wish to be approved at. Your information will be forwarded to those auctions only.

Auctions do not have access to your information until you send it to them.

Red Angus Guide to EPDS and Indexes

ProS – Profitability and Sustainability is an all-purpose index that predicts average economic differences in all segments in the beef supply chain. This index is a combination of the breeding objectives modeled in the HerdBuilder and GridMaster selection indexes. In this index, replacement heifers are retained from within the herd and all remaining progeny are fed out to slaughter and sold on a quality-based grid. Traits included in this index include CED, ADG, HPG, STAY, MW, DMI, CW, MARB, REA and Fat.

Index | Dollars per Head | Higher Value

HB – HerdBuilder is a maternal selection index that predicts the economic differences of animals for traits that are important from conception through weaning.

HB is calculated based on the scenario that bulls are mated to heifers and cows, replacement heifers are retained and all remaining progeny are marketed at weaning.

This index is a combination of CED, CEM, WW, Milk, MW, HPG and STAY.

Index | Dollars per Head | Higher Value

GM – GridMaster is a selection index that predicts the average economic difference of non-replacement calves through the post-weaning phase of production. GM places selection pressure on growth, feed yard performance and carcass traits.

GM is calculated based on the scenario that progeny are fed out to slaughter and marketed on a quality-based carcass grid. This index is a combination of ADG, CW, DMI, MARB, Fat and REA.

Index | Dollars per Head | Higher Value

CED – Calving Ease Direct predicts differences in the percent of calves born unassisted out of 2-year-old dams.

Percent | Higher Value

BW – Birth Weight predicts differences in actual birth weight of progeny. **Pounds | Lower Value**

WW – Weaning Weight predicts differences in 205-day weaning weight. **Pounds | Higher Value**

YW – Yearling Weight predicts differences in 365-day yearling weight. **Pounds | Higher Value**

ADG – Average Daily Gain predicts differences in weight gain between 205 and 365 days of age. **Pounds | Higher Value**

DMI – Dry Matter Intake predicts differences in daily feed intake as measured in a feedlot during the post-weaning period.

Pounds | Lower Value

MILK – Milk predicts differences in weaning weight attributed to the milking ability of the animal's daughters. **Pounds | Higher Value**

ME – Maintenance Energy predicts the difference in maintenance energy requirements. **Mcals per Month | Lower Value**

HPG – Heifer Pregnancy predicts differences in the percent of daughters who are able to conceive and calve at 2 years of age following exposure to breeding. **Percent | Higher Value**

CEM – Calving Ease Maternal predicts differences in the percent of daughters who are able to calve unassisted as 2-year-old heifers.

Percent | Higher Value

STAY – Stayability predicts differences in the ability of an animals' retained daughters to remain productive in the herd – calve every year – through 6 years of age. **Percent | Higher Value**

MARB – Marbling predicts differences in marbling score – amount of intramuscular fat measured at the 13th rib.

Marbling Score Units | Higher Value

YG – Yield Grade predicts differences in USDA Yield Grade, which is calculated using CW, REA and Fat. **Yield Grade Units | Lower Value**

CW – Carcass Weight predicts differences in actual hot carcass weight. **Pounds | Higher Value**

REA – Ribeye Area predicts differences in square inches of ribeye area measured at the 13th rib. **Square Inches | Higher Value**

FAT – Fat predicts differences in the depth of backfat measured between the 12th and 13th ribs. **Inches | Lower Value**

- A Man In Black 075 son that you can't help but appreciate his depth and hind-quarter thickness.
- He developed well this summer and has continued to perform above expectations.
- Out of Red Top 927 cow that has been a ranch favorite for many years and is now in our embryo program.
- A bull that hits all the marks on his growth and carcass numbers but will also prove to be more maternal than his EPDs show.
- We will be retaining 50% semen interest on him.
